CERTIFIED MAIL - RETURN RECEIPT

Dear Mr. Morby:

This letter pertains to the 06 July 1982 delivery of the required Closure Assurance for our referenced storage site.

We have experienced some difficulty in the selection of the instrument which the corporation would submit to satisfy the EPA requirements and simultaneously satisfy the requirements of the various states in which the corporation conducts business.

It is our intention to utilize the financial test and corporate guarantee for closure. All that remains in order to complete this instrument is the independent accountant's report.

Due to these delays, we will not have the Closure Assurance Documentation in your office by 06 July 1982. We anticipate that this documentation will be forwarded to you prior to 09 July 1982.

Sincerely,

MCDONNELL AIRCRAFT COMPANY
